

WASH vs. Owning Your Own

Partnering with WASH allows you to retain control of your laundry room, eliminate service and maintenance hassles, and earn more money in the long run.

Every minute that a washer or dryer is down results in potential lost revenue. As your partner, your business is our business:

- Our average response time to service calls is within hours - not days.
- We boast a 95% first time fix rate.
- A massive parts inventory guarantees you'll never be waiting long for parts.
- Our team of service professionals are knowledgeable, courteous, expertly trained and experienced.

We understand that no two situations are the exactly the same, and that's why we offer a variety of lease, rental, service, and collection options with flexible terms to help meet the business needs of our partners.

Our Guarantee

Give WASH a try for six months, and if, for any reason, you decide to go a different route, you are free to cancel with no further obligation.
